Eco-friendlier Bin Liners

CERTIFIED

PLANT-BASED

INNOVATIVE

The Enviropus range of compostable biodegradable bin liners are the ideal alternative to traditional plastic bags. The liner materials are derived from corn starch which will compost over time in home or commercial composting conditions.

These eco-friendlier bin liners are available in 30L, 80L, 120L and 240L bags. All these bags are certified compostable to meet strict Australian standards.

Storage instructions: Store in a cool dry place away from heat and direct sunlight.

Recommended shelf life: 12 months

PRODUCT CODE	DESCRIPTION
